Summary of the Highway 29 Boulevard of Opportunity Study

Why is it important?

- To determine appropriate land uses, transportation improvements, revitalization opportunities, and urban design elements to create a mixed-use, pedestrian friendly, upscale destination corridor that supports and encourages alternate forms of transportation.
- Create a regional model for how to effectively remarket, re-imagine and re-invigorate a community through the transformation of a currently auto-dominated street into a prestigious corridor.

How will the plan be completed?

- Is a 6-month planning process, to occur between September 2010 and March 2011
- With your involvement! Please plan to attend the upcoming Community Meetings (all meetings to be held at Providence Christian Academy at 6:30pm):
 - Community Meeting #4: January 27, 2011
 - Community Meeting #5: March 3, 2011

Where will this occur?

- Study will address properties along Highway 29 between Rockbridge Rd and Ronald Reagan Parkway.
